E-SQUARED IT

Enduring. Excellence.

IT Support for Your Nonprofit Mission

Reliable, budget-conscious IT support for your organization and the people you serve.

Donors, volunteers, and the people you serve count on your organization. E-Squared IT helps you keep essential services running with dependable technology support. From everyday IT issues to data protection and recovery, our New Jersey-based team helps keep your staff focused on the work that matters.

Managed IT Services

Proactive monitoring and responsive support for everyday technology needs.

Business Continuity

Backups and disaster recovery to help keep programs and operations running.

Cloud Services

Secure access to files and collaboration tools across offices and remote locations.

Security Services

Cybersecurity to help protect donor, client, and organizational information.

VoIP Solutions

Phone systems that help keep your staff and community connected.

Cloud Sprawl and Software Management

Review, consolidate, and manage licenses, accounts, subscriptions, and support vendors.

With flat-rate pricing and guidance you can understand, we make it easier to plan for IT and get the support your team needs.

Let's talk about IT support that fits your mission and your budget.

More Time and Resources for Your Mission

Help your nonprofit do more with the resources you have.

When technology works reliably, your team can spend less time solving IT problems and more time serving your community.

Plan your budget with confidence

Flat-rate pricing helps you anticipate IT costs and avoid unexpected technology expenses.

Protect donor and client trust

Cybersecurity helps safeguard sensitive information and your organization's reputation.

Help small teams work together

Secure cloud tools make it easier to share files and collaborate across offices and remote locations.

Work with a local team that speaks plainly

Friendly, New Jersey-based support gives staff clear answers without technical jargon.

Give your staff time back

Managed support takes technology problems off their plates so they can focus on your mission.

Keep essential services running

Proactive monitoring, backups, and disaster recovery help reduce interruptions to programs and daily operations.

Get more control over technology spending

Consolidate excess licenses, accounts, subscriptions, and support vendors to reduce duplication and simplify management.
